

WEB DOCUMENTARY WORKSHOP - TUESDAY 28 JUNE LIGNANO (3 hours)

Starting from the 3 groups that were created during the Summer School in Lyon at the beginning of May, you will find attached a proposition that has been created by Francesca. I kindly ask you to explore it in order to bring your changes and suggestions. It represents the base of our work and it is therefore important for everyone to agree on it.

Starting from the timeline (see the complete timeline scheme below), we are going to take a glimpse on a first sketch of the construction (see the navigation construction below)

It is now time for everyone to validate the work done up to now and start from this point. We have to find a coherent and simple navigation that allows to enter the web documentary.

Two ideas emerged for the moment, either starting from the COUNTRIES or from the THEMES, and we have recently decided the COUNTRY entry is more simple to develop.

After everyone agrees on this and validates this choice, the workshop that will take place in Lignano is going to focus on the construction of the navigation (see the navigation scheme below).

All along this atelier, we will maintain the working principle of three groups: Italy, France and Moldova.

I have worked on the example of Italy (see the navigation scheme for Italy below), so we'll have to create one for Moldova and France.

Once the three navigations are created, we have to fill in the menus and sub-menus with our choice of text, photos and videos.

As you can notice, the navigation scheme for Italie presents two separated sections: ACTIONS and THEMES. The former linked to images, description, sensations and the former linked to the redactional side of research, explication, information.

We will then be able to create a STORY BOARD FOR EACH COUNTRY clearly separating the IMAGE from the REDACTIONAL.

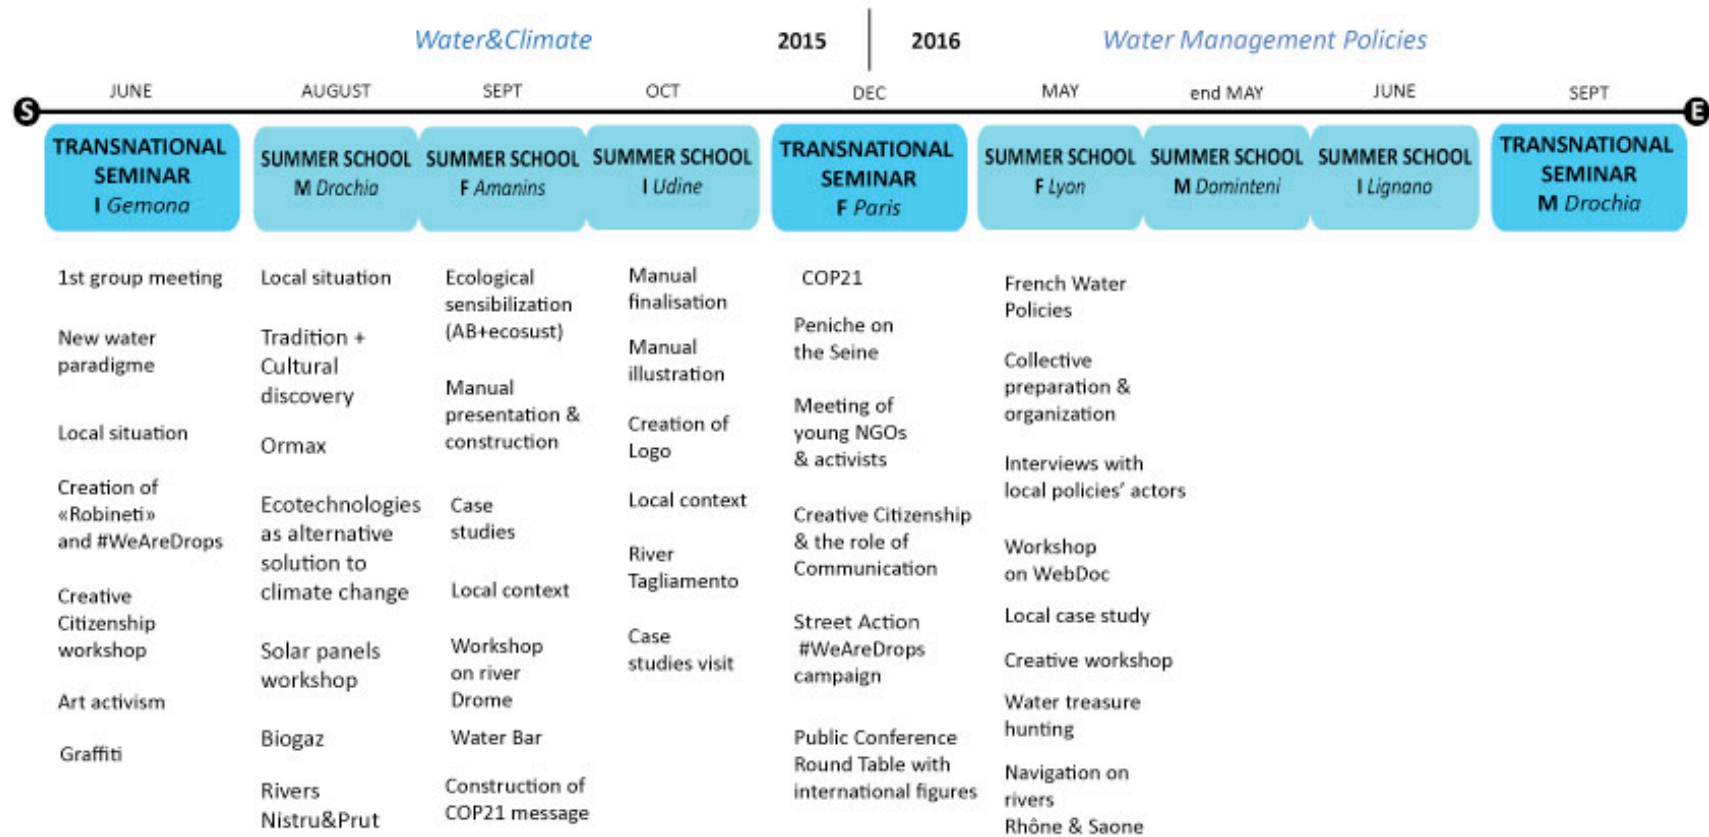

It is important to keep the connection with the blog as it represents part of the work that has already been done in terms of navigation <http://www.jeunes.coordination-eau.fr/index.php/le-projet/>

I let you think, elaborate and prepare this workshop to the extent you can, it would be ideal to have Moldova and France ready before :-)

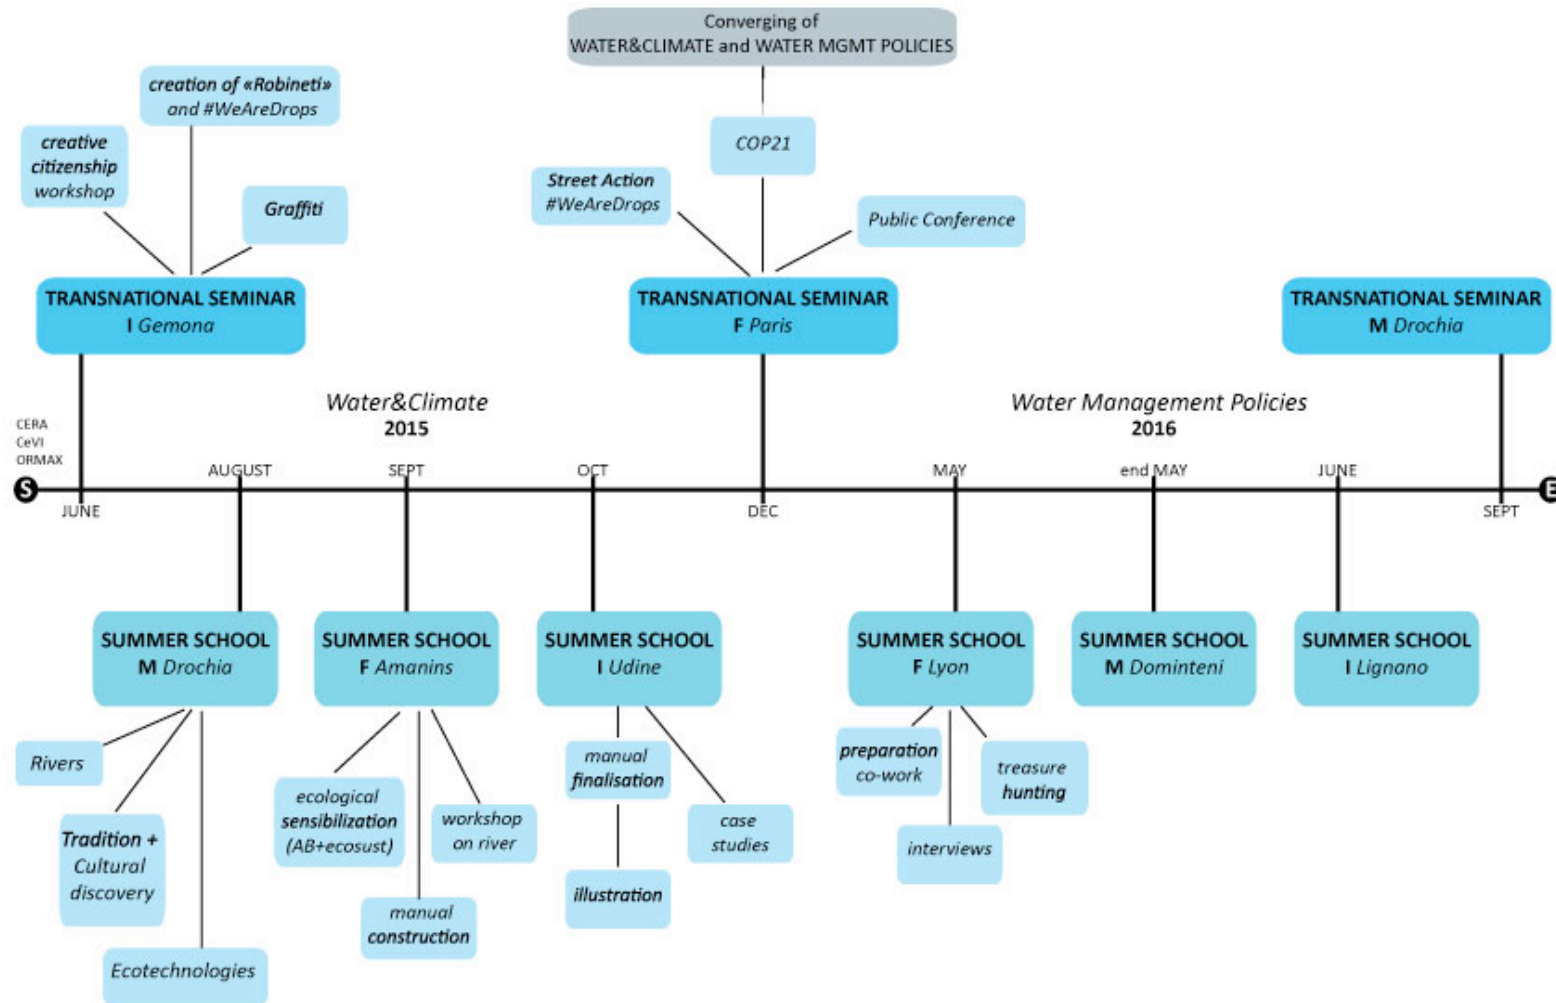

I remain available for all of you for any question or doubt, you can get in touch with me by email and Skype maryline.gerenton@gmail.com - lakoani.

Water as a Common Good

Youth Competence

Workshop for the creation of a WEB DOCUMENTARY

Strategic partnership in the field of youth competence (CERA-France, CeVI-Italy et Ormax-Moldova) around informal education, associative engagement, art activism and research in order to give voice to young Europeans on the topic of water as a common good.

- > Informal education
- > Collective building of knowledge and tools
- > Exchange, sharing and diffusion
